

WhisperFlow® Fixed and Variable High Flow CPAP Generators

A Noninvasive CPAP Option Instead of Intubation

WhisperFlow Generators are simple but exceptionally accurate devices used to administer Continuous Positive Airway Pressure (CPAP). They provide a flow in excess of the patient's demand. Constant pressure is applied with a range of CPAP valves.

The portable system is easy to set up and use. With a wide range of CPAP valves and a variety of masks and accessories, the generators may be customized for individual patient's needs.

The WhisperFlow Variable Generator allows noninvasive adjustments of flow and oxygen percentage. The WhisperFlow Fixed Generator is applicable where O₂ conservation is a practical concern. Both generators are designed to:

- Reduce work of breathing
- Improve O₂ uptake
- Provide pre-emptive treatment of cardiogenic pulmonary edema and shortness of breath in pre-hospital settings
- Free up ICU ventilators in CPAP applications
- Help prevent postoperative atelectasis
- Provide a suitable modality for postoperative weaning

Product Specifications

Available Oxygen Fittings	DISS, BS 5682, Aer Liquide, 1/2" UNF, 1/4" NPT, Mini AGA, 6mm Hose Barb
Flow Rate Range	0-140 L/min
FIO ₂ Range	28-100% (Variable Flow) 30% (Fixed Flow)

Part Number Accessories Qty/Box

8-100068-00	Pole Mounting Bracket (for variable generators)	1
8-100380-00	Oxygen Hose (84"w/ DISS fitting)	1
8-208570-00	CPAP Filter	10
8-201009-00	Straight Connector (22 mm F/22 mm F)	50
8-202503-00	T- piece/O ₂ Analyzer (15 mm F)	50
8-202502-00	T- piece/Safety Valve (22 mm F)	50
4-005054-00	T- piece (15 mm F/22 mm M), 16" Tube, Adapter (22 mm M/30 mm M)	10
8-100264-00	Adapter (22 mm F/30 mm F)	50
4-005053-00	Adapter (22 mm M/30 mm M)	50
